

Please join us in Japan's world-famous NISEKO ski resort from March 2nd-4th, 2017.

The Seventh Comparative Ocular Surface Diseases workshop

Main

Main theme: Differences among measurement methods of lacrimal fluid

- ▶ What do STT, PRT, SMT mean?
- ▶ How to use these data in clinical ophthalmology?

The Second Call

*We look forward
to seeing you there!*

Date

March **2**^{thu} - **4**^{sat}, 2017

Venue

Niseko Northern Resort An'nupuri

<http://www.niseko-northern.com/>

480-1 Aza Niseko, Niseko cho, Abuta gun, Hokkaido zip code 048-1511 Japan

Speakers

Lionel Sebbag, Dr. Med Vet

[**Assistant Professor, Ophthalmology**

[Iowa State University, School of Veterinary Medicine]

Keynote theme

Feline lacrimal functional unit: relationship between ocular innervation and tear production.

Sub theme

- 1) Do cats get dry eye?
- 2) Methods to measure aqueous tear production: why I believe Schirmer tear test is still the best
- 3) Corneal sequestrum: Is the brown discoloration caused by tear film anomalies?

Participation fee

30,000 JPY (until 31st Jan. 2017) / 35,000 JPY (After 1st Feb. 2017)

Registration

24th Feb. 2017

Call for papers

31st Jan. "case report of OSDs, clinical and case report of OSDs, clinical research of STT, PRT, SMT in dogs and cats"

How to apply
